1 ☐2 ☐ **Site History**

- Contamination History
- Initial Response
- June 1988 Records of Decision (RODs)
- Remedy
- Definition of the Contaminant Plume
- Cost Recovery Litigation
- Design of the Remedy

3 ☐ **Litigation**

- EPA is involved in litigation to recover project costs from responsible parties
- Past costs through May 1999 totaled approximately \$5 million for both sites.
- Estimated future cost of the planned remediation system is approximately 3 million dollars.

4 ☐ **TCE In Groundwater: 1998**5 ☐ **Work Completed In 2001**6 ☐ **Additional Work: 2001**7 ☐ **Planned Remedy**

- Pump and treat contaminated groundwater as specified in the Record of Decision
- EPA wants to work with the Borough to ensure that there are no impacts to the municipal well

8 ☐ **Design Issues**

- Treatment technology: plan to use liquid phase granulated activated carbon (GAC) instead of air stripping followed by GAC
- Locations: finalize treatment plant locations including a plant near the former Fifth Dimension facility
- Discharge: to surface water or to infiltration wells

9 ☐ **Schedule**

- Field Work: January 2001 – December 2001
- Design: August 2001- January 2002
- Construction Start: July 2002
